Report on illiteracy in pakistan

World adult illiterate population, percentage by country, 2000-2004¹

1. 2000-2004 data are derived from the March 2004 literacy assessment by the UNESCO Institute for Statistics, which uses directly reported national figures together with UIS estimates. For countries that did not report literacy data for the 2000-2004 reference period, UIS estimates for 2002 were used.

Mothers' illiteracy and lack of schooling directly disadvantage their young children. Low schooling translates into poor quality of care for children, consequently in higher infant and child mortality and malnutrition, because mothers with little education are less likely to adopt appropriate health-promoting behaviors, such as having young children immunized. 08/03/2014 · Pakistan's short history as a country has been very turbulent. Fighting among the provinces--as well as a deep-rooted conflict that led to a nuclear stand-off with India—prevented Pakistan from gaining real stability in the last five decades. It oscillates between military rule and democratically ...
